

Farm Hands required – Western Australia

We require Farm Hands on a modern broad acre farm 2hrs North of Perth in Western Australia, producing Wheat, Barley, Canola, Export Hay, Clover seeds, and Peas.

The town of Moora is 20minutes by car, and includes a wide range of facilities - banks, schools, supermarkets, and sporting facilities.

Good accommodation is provided on farm; meals and transport are the responsibility of the employee.

A fleet on Modern equipment is used in the operation and incorporates GPS guidance and auto steer.

Our primary equipment includes - John Deere 4 wheel drive tractors - 9430 and 9520. These pull 12 and 15 meter air seeders delivering seed, compound and liquid fertilizers. A 36m Nitro SP sprayer is used for the spray program.

John Deere front wheel assist tractors including - 7930, 8330 and an 8410 are used for other applications.

Our harvesting equipment includes a Case 8010 and a New Holland CR960 harvesters.

Experience in crop spraying and truck driving would be useful but not essential. and the position would also involve general day to day farming activities including maintenance, some steel fabrication/welding etc.

This is a job for a capable, self motivated individual seeking to learn and develop their skills on a modern and progressive farm
